**C.G. JUNG CLUB OF ORANGE COUNTY**

**Continuing Education Units (CEUs)**

The C.G. Jung Club of Orange County provides quality educational programs designed to promote the study and discussion of Jungian Psychology, also known as Depth Psychology. The programs elaborate and amplify the ideas of C. G. Jung by exploring diverse perspectives of Jungian Psychology, as well as a wide range of subjects studied by Jung and his followers, such as mythology and comparative religion. We seek to understand the human psyche through the psychological theories and therapeutic methods pioneered by C.G. Jung and the current use of Jungian concepts by contemporary Jungian analysts.

The programs are directed toward the interests of mental health practitioners, individuals from related disciplines, and the general public. Licensed Marriage and Family Therapists, Clinical Social Workers, Professional Clinical Counselors, and Educational Psychologists can gain from our programs a deeper understanding of psychological theory and/or clinical practice from a Depth Psychology/Jungian perspective.
